THE INDUSTRY
★ INNOVATOR ★ ORIGINATOR

Eliminate owner expense - material and maintenance:

- Medical and staff can easily bypass for emergency ingress
- "Power Hold" magnet eliminates re-engagement and lockouts

Occupant comfort and safety:

- "Touch only" to engage and dis-engage for Guest convenience
- Ease of use assures Guest comfort with a sense of privacy

FORM

- Available in all Architectural Finishes
- Adapters for 2 1/4" (57.2mm) thick doors - see Accessories

FUNCTION

"TOUCH CONTROL"

a DHSI exclusive

***Insist on Auto-Hold
and Auto-Release***

Eliminates lockouts

***Manual engage and release
can be a code violation***

- ★ Medical and staff can easily bypass for emergency ingress with simple wire hanger tool made on site
- ★ "Other" designs are reported to require a factory tool and special knowledge to use, resulting in door damage

- ★ Auto-Hold eliminates vibration re-engagement that results in consuming service calls and guest annoyance
- ★ No twisting of the wrist to comply with ADA "simple" to activate and de-activate required by code

- Architectural Finishes:
US26D, US15, US3, US4, US10, US10B, US14, US17A, US19, US26,
