

A Truly Revolutionary New Product Introduction:

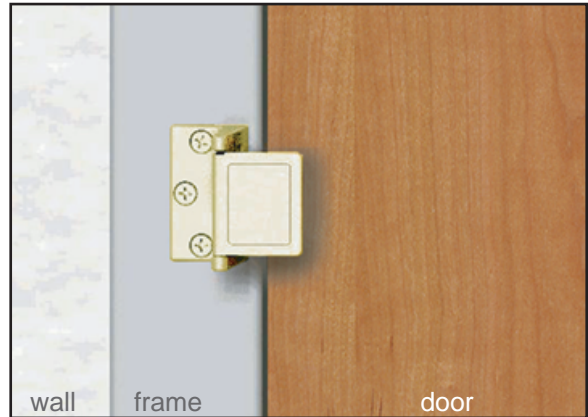

Would you like to stop -

- Damaged Edges on Doors?
- **Guests from (illegally) propping open entry fire doors?**
- **Accidental Lock Out from the Conventional Flip-Latch?**

"Secur-A-Latch" Privacy Keeper

Push to engage and secure.

Prevents door from opening.
Magnetic Hold.

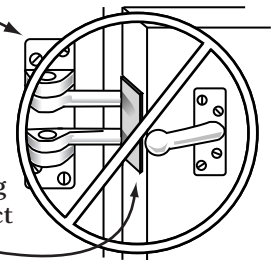

"Touch release"® - Springs quietly back to normal position as door hits

Eliminate the biggest "problem product" in the industry:

A Conventional Flip Latch Privacy Keeper

-Shown here propping the door open, requiring an edge guard to protect the door

"Secur-A-Latch" eliminates the need for edge guards.
