These are only typicals. Contact DHSI for full Hardware Sets for Cross-corridor, service, back of house, storage rooms, public bathroom, etc.

Request DHSI architectural details for transition requirements such as carpet to tile, LVT to carpet tile, integral pad with standard carpet etc. Other options available for existing construction.

It is required that a distributor include the appropriate DHSI architectural details on a submittal. Sales cut sheets are not acceptable.

Call DHSI to request a word document (.doc) version of the hardware sets for downloading or incorporating in your specs.
